

**Fulbright Foreign Student Program  
Nominee Placement Suggestion and Information Form**

Congratulations on your nomination for a Fulbright Foreign Student Scholarship! The AMIDEAST staff in Washington, DC, will begin researching appropriate academic placements for you as soon as your file reaches our office. We welcome your suggestions regarding universities at which you would like to study, and we hope that you will use this form to provide four (4) placement preferences.

While we will try to accommodate your suggestions, please understand that we may not be able to submit your application to all the universities that you list here. Our mission is to match your strengths with a program in the U.S. that will meet your academic needs, fit within our budget constraints, and is representative of the variety of educational institutions in the US in order to provide you with a unique cultural experience. *You are not required to provide submissions suggestions if you do not wish to.*

Please complete this form as **thoroughly as possible** and return it to the AMIDEAST-Fulbright contact in your home country. In the first section you should enter your own credentials. In the second section you should list your four schools, giving for each a website link that will allow us to easily find the application or information on how to apply, as well as the date that applications are due to the university. **Please note:** The due date listed on the university website will likely be MUCH later than the date you will be required to send your application materials to AMIDEAST Headquarters. It is important that you plan accordingly and have your application prepared as far in advance as possible.

Then, in section three, enter information regarding your preferred university placements. Please take time to compare your credentials with those required by the universities that you suggested to make sure you will be a viable candidate. Key areas to compare are your test scores, academic record, previous research experience, as well as considering the acceptance rate (how many students are accepted out of the number that apply) and a “match” between your research interests and that of the specific program or one or more faculty members in the department. If your justification will not fit in the space provided, you may write your responses on a separate page.

**If you have already applied to U.S. universities, you should list them here and provide photocopies of all correspondence with the universities to your AMIDEAST-Fulbright contact.**
