

Travel Policy & Prohibited Locations

Amideast Education Abroad reserves the right to advise or strongly advise against travel by students to particular locations in the MENA region outside of the host country, and selectively around the world, for health, safety, and/or security reasons. Amideast's designation of such locations may mirror that of the US Department of State or may be more restrictive out of an abundance of caution. Amideast may notify home institutions, scholarship providers, and/or emergency contacts that Amideast advises against a student's planned travel to a specific location. In addition, Amideast reserves the right to require that students who plan to travel to particular locations complete an International Travel Registration Form that includes a signed Travel Waiver Form prior to travel. Failure to follow the procedures as noted here and in the Student Agreement and Release will be considered a violation of the Student Agreement and Release. Sanctions for violation may include dismissal from the program.

In addition to advising against travel to specific locations outside the host country, Amideast Education Abroad also reserves the right to prohibit participant travel to locations/neighborhoods in the host country for safety and security reasons at any point during a program.

At any time, Amideast may modify the list of locations to which it advises against, strongly advises against, or prohibits travel. Changes to this policy may be communicated to students by on-site or headquarters staff. Students should contact on-site Amideast Education Abroad staff before any intended independent travel to check the status of a planned travel destination. Please see the Amideast Student Agreement and Release for more information regarding travel.

Students should note that many home institutions have policies regarding independent travel in the MENA region and beyond. Students are responsible for making themselves aware of all home institution advice and policies regarding travel and to abide by that advice and those policies. Regarding independent travel generally and/or travel to a specific location, a home institution's policies regarding travel may be more or less restrictive than Amideast's own travel policies. In such cases, **THE MORE RESTRICTIVE POLICY APPLIES, and Amideast adheres to home institution policies that are more restrictive than its own**, including but not limited to enforcing academic penalties of which Amideast becomes aware.

All Amideast Education Abroad students planning to travel independently MUST submit an online Travel Registration Form before traveling anywhere outside their host city and the immediate surrounding metropolitan area. In most instances of travel outside the host country (please note the exceptions listed below), the deadline for submission of this form is five days before travel begins. In all instances of travel within the host country, the form submission deadline is 24 hours before travel begins.

In general, Amideast encourages students to be extremely attentive to their surroundings at all times when traveling within or outside the host country. Further, it is imperative that students remain abreast of news reports about the locations to which they will travel independently to avoid areas of high risk. Students should register any travel outside of the host city with Amideast's security intelligence provider, World Aware, and with the US Embassy (if outside the host country) through the State Department's Safe

Travelers Enrollment Program (STEP) or with the embassy of their home country. Please see the State Department's worldwide Travel Advisories [here](#).
